

Fence Application Process

\$30.00 permit required for residential.

\$40.00 permit required for commercial.

Prior to issuance of permit:

Fence location inspection required.

*Application filled out with abutting neighbor's signatures, or a survey submitted.

Applicants applying for wooden fences must submit a picture of the fence to be installed.

Fences can be placed along side and rear property lines as long as:

1. The required abutting neighbor's signatures are on application.
2. OR a survey of the property is submitted.

*Submitting a survey of property will allow resident to erect a four-foot high fence on side property lines and six-foot high fence along rear property line without having to obtain neighbor's signatures.

*If resident wishes to erect a six foot high fence along side property lines, which by ordinance 6' in height is allowed, then the signatures of the abutting neighbors are required on the application giving their permission for the height as well as location.

No stockade fences are permitted. Fences must be board-on-board or shadow box, or space the slats two inches apart. White vinyl lattice-top is allowed. Chain link fence is also acceptable.

Posthole inspections are required.

Fence ordinance available upon request.
