RE: Municipal Membership – West Creek Conservancy
*Mill Creek Watershed Partnership

Dear Mayor Burke,

Office Location
7381 Camelot Drive
Parma, OH 44134
www.westcreek.org

For 23 years, West Creek Conservancy has fervently worked throughout Greater Cleveland to protect vital natural resources, create publicly accessible greenspaces, and assist with a variety of watershed planning/management and stewardship practices.

We invite you to become a Municipal Member of West Creek Conservation and we will continue to provide the following (albeit not limited to) for the community:

- Land conservation/real estate services
- Habitat restoration initiatives (e.g. stream/wetland restoration)
- Trail/greenway development
- Green infrastructure/stormwater control measure implementation
- Watershed planning and best practice guidance
- Community liaison with residents for land/water conservation services
- Grant application assistance/management
- Tree canopy enhancement and implementation

Thank you again for the consideration, and please feel free to reach out at any point should you need additional information or would like to discuss new initiatives that would benefit the City of Garfield Heights.

Cheers,

Executive Director

West Creek Conservancy Member Community Services

West Creek Conservancy is a regional land trust and watershed group that has been serving Northeast Ohio since 1997. This unique organization gives us the flexibility to act as both a land conservancy, protecting valuable greenspace, to providing watershed services to our area municipalities. Annual community memberships help us provide the following services to our member communities.

- Assistance to local governments and councils to understand stormwater permit requirements and updating regulations where appropriate.
- Assistance with your community stormwater program and stormwater control measure (SCM) practices.
- Training opportunities on watershed management practices for landowners, community professional, and municipal workers. These trainings can range from rain-barrel workshops to bio-retention and basin management.
- Resource assistance for local governments on economic incentives of watershed management, conservation, pollution prevention, and other practices.
- Assistance in implementation of SCM practices that support onsite-based management practices, erosion and sediment control, riparian and wetland setbacks, and other improved local practices to address water quantity and quality issues.
- Assistance in the preservation and protection of open spaces that aid the community in watershed management, conservation, pollution prevention, and other practices.
- Zoning ordinance review and assistance to help ensure compliance on stormwater, riparian, and watershed issues.
- Grant writing assistance for stormwater, watershed, and green space protection.
- Mapping and GIS analysis of the community to help prioritize SCM management for efficiency of investment.
- Assistance in allocation of NEORSD Community Cost Share (if applicable).
- Provide volunteer community events to help improve local greenspaces through tree plantings, invasive removals, and stream cleanups.

Our Mission

Our mission is to enrich the lives of people in Northeast Ohio by conserving natural habitats, restoring the ecological value and sustainability of urban lands, and expanding neighborhood opportunities to experience nature.
